Contents, Volume 32

Number 1, March 1986

Dry weight and nutrient content of fuelwood biomass from loblolly pine stands in north Louisiana ..... *B. G. Lockaby, J. C. Adams* 3

Insects and leaf area losses of planted northern red oak seedlings in an Ozark forest ..... *M. J. Linit, P. S. Johnson, R. A. McKinney, W. H. Kearby* 11

Predicting site hazard to fusiform rust ..... *R. C. Froelich, G. A. Snow* 21

Characterizing diameter distributions with modified data types and forms of the Weibull distribution ..... *B. R. Zutter, R. G. Oderwald, P. A. Murphy, R. M. Farrar, Jr.* 37

Fire induced tree mortality in a Colorado ponderosa pine/Douglas-fir stand ..... *James G. Wyant, Philip N. Omi, Richard D. Laven* 49

Response of three conifer species to site preparation and shrub control ..... *W. T. Lanini, S. R. Radosevich* 61

Adaptive variation in *Pinus ponderosa* from intermountain regions. I. Snake and Salmon River basins ..... *G. E. Rehfeldt* 79

Linkage among genes controlling monoterpene constituent levels in loblolly pine ..... *A. E. Squillace, Benee F. Swindel* 97

Econometric analysis of the factors influencing forest acreage trends in the Southeast ..... *Ralph J. Alig* 119

Identifying woodland owner characteristics associated with timber management ..... *John L. Greene, Keith A. Blatner* 135

Foliar nutrient composition of *Juniperus osteosperma* and environmental interactions ..... *Eileen D. Bunderson, Darrell J. Weber* 149

Oak regeneration after clear felling in southwest Virginia ..... *Michael S. Ross, Terry L. Sharik, David Wm. Smith* 157

Measurement of seed vigor for loblolly and slash pines ..... *F. T. Bonner* 170

A compatible system of growth and yield equations for slash pine fitted with restricted three-stage least squares ..... *B. E. Borders, R. L. Bailey* 185

Effects of laminated root rot on relationships between stem growth and root-system size, morphology, and spatial distribution in Douglas-fir ..... *W. J. Bloomberg, A. A. Hall* 202

A dynamic cost and factor demand analysis for the Pacific Northwest lumber and plywood industries ..... *David E. Merrifield, William R. Singleton* 220

Distribution of biomass within small tree and shrub form *Quercus gambelii* stands ..... *Warren P. Clary, Arthur R. Tiedemann* 234

Response increment: a method to analyze thinning response in even-aged forests ..... *Ross Horne, Grant Robinson, John Gwalter* 243

Merchantability of loblolly pine—an application of nonlinear regression with a discrete dependent variable ..... *Mike R. Strub, Edwin J. Green, Harold E. Burkhart, Walter R. Pirie* 254

Notes

Eastern dwarf mistletoe seed storage, germination, and inoculation of spruce seedlings ..... *William H. Livingston and Robert A. Blanchette* 92

Allelopathic potential of coniferous species to old-field weeds in eastern Quebec ..... *Robert Jobidon* 112

Fitting assumed distributions to horizontal point sample diameters ..... *Paul C. Van Deusen* 146

Estimates of genetic parameters for deer browsing of Douglas-fir ..... *Roy R. Silen, William K. Randall, and Nancy L. Mandel* 178

Total cubic volume equations implied by diameter-based merchantable to total volume ratio models ..... *Thomas B. Lynch* 262

Reviews

A theory of forest dynamics: the ecological implications of forest succession models. ..... *Reviewed by John T. Finn* 9

Science and practice of agroforestry 1: soil productivity aspects of agroforestry. ..... *Reviewed by W. W. McFee* 20

The relascope idea: relative measurements in forestry. ..... *Reviewed by Richard G. Oderwald* 35

Tree harvesting techniques. ..... *Reviewed by John J. Garland* 60

Eucalypts for wood production. ..... *Reviewed by R. A. Seitz* 77

Announcements
Molecular Forest Biology Summer Workshop at the Institute of Forest Genetics, Placerville, CA 2
"Use of auxiliary information in natural resource inventories"—Proceedings available 2

Forest Science Monograph 26: Predicting regeneration in the grand fir-cedar-hemlock ecosystem of the northern Rocky Mountains. By Dennis E. Ferguson, Albert R. Stage, and Raymond J. Boyd. (Mailed concurrently with this issue of *Forest Science* as a separate.)

Number 2, June 1986

The scenic beauty temporal distribution method: an attempt to make scenic beauty assessments compatible with forest planning efforts ..... *R. Bruce Hull IV, Gregory J. Buhyoff* 271
A ratio approach to predicting merchantable yields of unthinned loblolly pine plantations ..... *Ralph L. Amateis, Harold E. Burkhart, Thomas E. Burk* 287
FORCAT: a single tree model of stand development following clearcutting on the Cumberland Plateau ..... *T. A. Waldrop, E. R. Buckner, H. H. Shugart, Jr., C. E. McGee* 297
Estimating and valuing western pine beetle impacts ..... *Andrew M. Liebhold, Peter Berck, Nancy A. Williams, David L. Wood* 325
Environmental and historical factors affecting red and white fir regeneration in ecotonal forests ..... *Albert J. Parker* 339
Time-series analyses of tree-ring chronologies ..... *Robert A. Monserud* 349
A dynamic forest sector model with a Swedish case ..... *Lars Lönnstedt* 377
Hiking values and the recreation opportunity spectrum ..... *Donald H. Rosenthal, Richard G. Walsh* 405
Complex compatible taper and volume estimation systems for red and loblolly pine ..... *John C. Byrne, David D. Reed* 423
Simulation studies on line intersect sampling of forest residue, Part II ..... *John W. Hazard, Stewart G. Pickford* 447
Predicting scenic beauty of timber stands ..... *Thomas C. Brown, Terry C. Daniel* 471
Regeneration and growth after logging Florida pondcypress domes ..... *Valery J. Terwilliger, Katherine Carter Ewel* 493
Multiobjective regional forest planning using the noninferior set estimation (NISE) method in Tanzania and the United States ..... *Julia C. Allen* 517
Temperature and time in storage influence the efficacy of selected isolates of fungi in commercially produced ectomycorrhizal inoculum ..... *Ling-Ling L. Hung, Randy Molina* 534

Notes
Soil nutrient flux: a component of nutrient cycling in temperate forest ecosystems ..... *David L. Peterson and R. David Hammer* 318
Yield prediction for unthinned natural slash pine stands: correction ..... *Thomas J. Wiswell and Robert L. Bailey* 347
Fusiform rust gradient in a loblolly pine plantation ..... *G. A. Snow, O. O. Wells, and G. L. Switzer* 372
Volume growth estimation from permanent horizontal points ..... *Paul C. Van Deusen, Tommy R. Dell, and Charles E. Thomas* 415
Site quality influences on biomass estimates for white spruce plantations ..... *R. B. Harding and D. F. Grigal* 443
The role of alkanes in epicuticular wax relative to tolerance of pine species to saline spray ..... *Michael Simini and Ida A. Leone* 487
Benomyl root treatment controls brown-spot disease on longleaf pine in the southern United States ..... *A. G. Kais, C. E. Cordell, and C. E. Affeltranger* 506
A re-evaluation of the site burden concept when forest land value is maximized ..... *Doug Rideout and John G. Hof* 511

Comment and reply
Input/output models and forest resource constraints: a comment ..... *Jeffrey R. Vincent* 397

Input/output models and forest resource supply constraints revisited ..... *Con H Schallau and Wilbur R. Maki* 401

Reviews

Forest ecosystems in industrial regions: studies on the cycling of energy, nutrients and pollutants in the Niepolomice Forest, southern Poland ..... *Reviewed by Bernhard Ulrich* 338

The forest-atmosphere interaction ..... *Reviewed by William P. Lowry* 545

Mycorrhizal symbiosis ..... *Reviewed by James M. Trappe* 547

Microfungi on land plants. An identification handbook ..... *Reviewed by R. L. Gilbertson* 553

Soil aeration and its role for plants ..... *Reviewed by William H. McKee, Jr.* 553

The visual display of quantitative information ..... *Reviewed by Ralph E. McNees* 554

Biophysical control of microfibril orientation in plant cell walls ..... *Reviewed by Richard S. Dodd* 555

Announcement

Symposium on the Aerial Application of Pesticides in Forestry 270

Manuscript reviewers, 1985 549

Forest Science Monograph 27: A growth and yield model for thinned stands of yellow-poplar. By Bruce R. Knoebel, Harold E. Burkhart, and Donald E. Beck. (Mailed concurrently with this issue of *Forest Science* as a separate.)

Number 3, September 1986

Changes in mortality and size-class spatial distribution patterns in pre-closure and post-closure conifer plantations ..... *Arthur W. Ghent and Susan E. Franson* 559

Binary-search SPOC: an optimal control theory version of ECHO ..... *Kenneth S. Lyon and Roger A. Sedjo* 576

Regeneration of Fraser fir at Mt. Mitchell, North Carolina, after depredations by the balsam woolly adelgid ..... *John A. Witter and Iral R. Ragenovich* 585

Lateral root morphology as an expression of sweetgum seedling quality ..... *Paul P. Kormanik* 595

Cortical monoterpene variation among slash pine ramets by season, aspect, crown position, and bud vigor ..... *Susan V. Kossuth and H. David Muse* 605

Water stress response after thinning *Pinus contorta* stands in Montana ..... *Bryan L. Donner and Steven W. Running* 614

Basal area prediction and projection equations for pine plantations ..... *Leon V. Pienaar and Barry D. Shiver* 626

Optimal hedging in lumber futures markets ..... *Raymond Deneckere, Joseph Buongiorno, and Sun Il Bark* 634

Effect of family and nitrogen fertilizer on growth and foliar nutrients of Douglas-fir saplings ..... *Dean S. DeBell, Roy R. Silen, M. A. Radwan, and Nancy L. Mandel* 643

A MAXMIN approach to nondeclining yield timber harvest scheduling problems ..... *John G. Hof, James B. Pickens, and E. T. Bartlett* 653

Clearcutting northern hardwoods: effects on hydrologic and nutrient ion budgets ..... *J. W. Hornbeck, C. W. Martin, R. S. Pierce, F. H. Borman, G. E. Likens, and J. S. Eaton* 667

Seasonal water relations of three gallery forest hardwood species in northeast Kansas ..... *Marc D. Abrams and Alan K. Knapp* 687

A growth model for mixed species stands ..... *Thomas B. Lynch and John W. Moser, Jr.* 697

Wildfire impacts on the present net value of timber stands: illustrations in the northern Rocky Mountains ..... *Thomas J. Mills and Patrick J. Flowers* 707

Taxonomic implications of monoterpene compounds of blue and Engelmann spruces ..... *Peter R. Schaefer and James W. Hanover* 725

A nonlinear programming approach to stand optimization ..... *Joseph P. Roise* 735

Variation in sapwood area–leaf area relations within two stands of lodgepole pine ..... *T. J. Dean and J. N. Long* 749

A matrix model of oak-hickory stand management and valuing forest land ..... *B. R. Michie and F. D. McCandless* 759

Prediction of scenic quality for southern pine stands ..... *Gregory J. Buhyoff, R. Bruce Hull IV, John N. Lien, and H. Ken Cordell* 769
Aboveground phenology in North Florida slash pine plantations ..... *L. C. Hendry and H. L. Gholz* 779
A mechanistic computer model of mountain pine beetle populations interacting with lodgepole pine stands and its implications for forest managers ..... *Kenneth F. Raffa and Alan A. Berryman* 789

Notes

Uptake and phytotoxicity of selenium in black cherry and white ash seedlings ..... *Theodore R. Angradi and Walter M. Tzilkowski* 806
Height–diameter relationships at age 15 in loblolly pine seed sources ..... *M. A. Buford* 812
Leaf area prediction equations for young southeastern hardwood stems ..... *Catherine G. Bacon and Shepard M. Zedaker* 818
Continuing response of *Pinus radiata* to phosphatic fertilizers over two rotations ..... *S. W. Gentle, F. R. Humphreys, and Marcia J. Lambert* 822
Critical height sampling and volumes by cylindrical shells ..... *Thomas B. Lynch* 829
In vitro digestibility of *Juniperus osteosperma* (Torr.) Little from 17 Utah sites ..... *E. D. Bunderson, Bruce L. Welch, and D. J. Weber* 834

Review

Forest ecosystems: concepts and management ..... *Reviewed by Shepard M. Zedaker* 841

Announcements

Atmospheric deposition and forest productivity conference proceedings available 558
Nineteenth southern forest tree improvement conference—call for papers 558

Number 4, December 1986

Market value of timber when some offerings are not sold: implications for appraisal and demand analysis ..... *F. M. Huang and J. Buongiorno* 845
The influence of gypsy moth on the composition and nutrient content of litter fall in a Pennsylvania oak forest ..... *J. R. Grace* 855
An approach for optimizing residual diameter class distributions when thinning even-aged stands ..... *J. P. Roise* 871
Effects of herbaceous weed control using herbicides on a young loblolly pine plantation ..... *B. R. Zutter, G. R. Glover, and D. H. Gjerstad* 882
Leaf-to-twig transfer conserves nitrogen and phosphorus in nutrient poor and enriched cypress swamps ..... *F. E. Dierberg, P. A. Straub, and C. D. Hendry* 900
Variation in flood-induced stomatal and photosynthetic responses of three bottomland tree species ..... *S. R. Pezeshki and J. L. Chambers* 914
Budbreak for twenty-three upland hardwoods compared under forest canopies and in recent clearcuts ..... *C. E. McGee* 924
Role of company sales in funding research and development by major U.S. paper companies ..... *S. H. Bullard and T. J. Straka* 936
Trends in genetic parameters with stand development and their influence on early selection for volume growth in loblolly pine ..... *G. S. Foster* 944
The declining even-flow effect—non sequitur of national forest planning ..... *A. G. McQuillan* 960
The role of exchange rates in Canadian–United States lumber trade ..... *D. M. Adams, B. A. McCarl, and L. Homayounfarrokh* 973
A logistic model of mortality in thinned and unthinned mixed conifer stands of northern Idaho ..... *D. A. Hamilton, Jr.* 989
An econometric analysis of residential demand for fuelwood in the United States, 1980–1981 ..... *I. W. Hardie and A. A. Hassan* 1001
Effects of interfering vegetation on biomass, fascicle morphology and leaf area of loblolly pine seedlings ..... *B. R. Zutter, D. H. Gjerstad, and G. R. Glover* 1016
A multiattribute utility model for incorporating risk in fire management planning ..... *L. D. Teeter and A. A. Dyer* 1032
Energy yield of black locust biomass fuel ..... *J. W. Stringer and S. B. Carpenter* 1049

Notes

Rectifying radii on off-center increment cores ..... *C. J. Liu* 1058

The impact of chronic cadmium exposure on growth of pin oak seedlings ..... *J. Kazimir and E. Brennan* 1061
Clonal and annual variation in cone production in loblolly pine seed orchards ..... *T. D. Byram, W. J. Lowe, and J. A. McGriff* 1067
Estimation of log volume by importance sampling ..... *G. M. Furnival, H. T. Valentine, and T. G. Gregoire* 1073
Intermediate inputs and the estimation of technical change: the lumber and wood products industry ..... *D. N. Bengston and A. Strees* 1078
Evaluating forest vegetative cover with computerized analysis of fisheye photographs ..... *S. S. Chan, R. W. McCreight, J. D. Walstad, and T. A. Spies* 1085
Effects of precommercial thinning on understory vegetation and deer habitat utilization on Big Level Island in southeast Alaska ..... *J. G. Doerr and N. H. Sandburg* 1092

Reviews
Biochemical basis of plant breeding. Volume I: carbon metabolism ..... *Reviewed by S. V. Kossuth* 1096
Handbook of natural pesticides: methods: Volume I, theory, practice, and detection; Volume II, isolation and identification ..... *Reviewed by F. B. Knight* 1097
Nitrogen fixation research programs ..... *Reviewed by D. H. Hubbell* 1099
1986 Index 1101
